Re: Your 2006 PV credit on Account # 7210943

Dear Eric:

On January 23, 2007, Xcel Energy will be issuing you a credit for the excess energy your PV installation generated during 2006. Here's how your credit was calculated:

197 kWh excess generation

x 4.291 cents per kWh (Average Hourly Incremental Cost of electricity for 2006)

\$8.45 Amount of credit

As stipulated in your Solar*Rewards contract, you will receive a check for this purchase. The check will be processed through our regular billing system, and you can expect it to arrive shortly.

This purchase by Xcel Energy brings your kWh "bank" of credit back to 0 kWh; any credits generated now will be applied in 2007.

Thank you again for participating in the Solar*Rewards program and for your interest in renewable energy. Please don't hesitate to call or email me if you have any questions or concerns.

Sincerely,

A handwritten signature in blue ink that reads 'Pam Newell'.
